EXECUTIVE SUMMARY

MERN stack developer and Computer Science graduate with hands-on project experience. Stepped away briefly for family reasons; now back with stronger communication skills, real-world maturity, and a renewed passion for building impactful software solutions.

WORK EXPERIENCE

One Point One Solution (Razorpay Process) | Gurgaon | Nov 2024 - Aug 2025

Handling pre-sales for **RazorpayX Business Banking**. Responsible for creating customer interest, checking eligibility, supporting onboarding, and assisting clients with API integration. Strong focus on communication and convincing skills to ensure smooth client conversion.

9Envoy Technologies (Internship)| Raipur | Jul 2023 - Jan 2024

- Developed utilities using **Golang** for internal tools and automation (**XLREADER**).
- Collaborated with senior developers on **JavaScript (ES6+)** projects.
- Gained hands-on experience in **full-stack development** using modern web technologies.

PROJECTS

STAY DETERMINED -<https://stay-determined-frontend.onrender.com>

Developed MERN productivity app for managing schedules, time tracking & expenses. Integrated debit/credit tracking and graphical data visualization. Planned updates to enhance productivity features.

- Built with **React.js**, styled using **Tailwind CSS**, and managed global state using **Context API**.
- API Handling: Integrated **Axios** for **asynchronous API** calls with proper `async/await` usage.
- Data Visualization: Used **Chart.js** (react-chartjs-2) to display expense and balance data graphically.
- Authentication: Implemented **JWT**-based auth with **bcryptjs** for secure password hashing.
- Developed using **Node.js + Express.js**, with **MongoDB** for database & modular route/controller setup.

XLREADER

Built a Go utility to parse Excel tables and create relational database tables, using efficient File I/O and external modules for smooth Excel-to-database conversion.
